DETAILED ACTION

1. Examiner has found appellant's arguments in Appeal Brief filed on 9/15/2004 persuasive. Therefore, examiner is withdrawing the finality of the previous office action.

Allowable Subject Matter

2. Claims 10, 14-18, 21-22 and 24-26 are allowed.
3. The following is an examiner's statement of reasons for allowance: Claims 10, 14-18, 21-22 and 24-26 are allowable since as argued by applicant in Appeal Brief filed on 9/15/2004, on page 5, line 14-page 6, line 8, certain key features of the claimed invention are not taught or fairly suggested by the prior art. In claim 10, "whereby the variable input responsive variable appearance portion of the housing changes appearance in response to the user variable output of the control circuit". In claim 21, "varying a variable appearance property of the variable input responsive variable appearance property portion of the housing in response to the user variable input applied to the wireless communication handset". The closest prior art, Lehtiniemi et al. (6,466,299) teaches of varying the color due to change in temperature, however, either singularly or in combination with other prior art, fails to anticipate or render the above underlined limitations obvious.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
